## ABOUT HAIR WHISPERERS

### **Mission Statement:**

Hair Whisperers seeks to offer an all natural, safe and effective treatment for head lice to help alleviate the stress that accompanies a lice infestation and help children get back into school.

### **Overview:**

The Hair Whisperers™ are a head lice removal service established in 2006 by Amy Goldreyer to get rid of lice in the comfort and privacy of their customer's homes. Our head lice treatment does not use chemicals and we do not sell any products claiming to eradicate lice. We use natural products to aid in the manual removal of lice, nits and eggs. In fact, the National Pediculosis Association believes that our processes are the safest and most effective way to remove lice and nits.

Now, as the sole Southern California distributor for the LouseBuster™ device, Hair Whisperers offers another safe, fast and effective alternative to ridding customers of head lice.

### **LouseBuster Overview:**

The LouseBuster™ head lice treatment is a revolutionary new way to kill head lice and their eggs without using pesticides or other chemicals. This breakthrough treatment uses only controlled heated air and clinical studies have shown that it is a very safe, fast and highly effective way to kill all stages of head lice – including lice eggs! Visit <http://hairwhisperers.com/lousebuster.html> for more information.

One, single 30-minute LouseBuster™ treatment is all that is needed to kill head lice and eggs. The clean, dry treatment uses only controlled heated air. No water. No gooey mess. The LouseBuster™ treatment can be performed on site, at the moment when the infestation is discovered. The LouseBuster™ treatment can minimize or even eliminate school and workplace absenteeism since a child can be returned to school right after the treatment based on school policy.

Because Hair Whisperers has used manual removal for years, we perform a thorough comb through following the LouseBuster™ treatment and guarantee 100% removal of lice and nits.

**Schools can now choose our SCREENING services or ON-SITE REMOVAL services!**

or call 310 990-1654**

## FREE SCHOOL SCREENING

Hair Whisperers will send 2 technicians to your school to perform a FREE 2-hour screening.

- Each child will receive a dry check using a new pair of latex free gloves
- The school will receive a brochure for each family explaining our service and detailing how to prevent infestations in your child
- Hair Whisperers also offers a 30-minute Powerpoint presentation, which includes instruction on the treatment of lice, as well as information on the revolutionary new lice removal method, the LouseBuster™ head lice treatment.

We will perform this service for free with a signed commitment that your school will hire Hair Whisperers to perform additional screenings with a minimum of 8 man hours during the school/calendar year (based on time of signing) at our discounted school rate of \$75 per hour.

**For more information, email [amygoldreyer@verizon.net](mailto:amygoldreyer@verizon.net)  
or call 310 990-1654**

To confirm your free screening, complete the information below and email or fax the completed form to 310 440-1995
